#### DETAILED ACTION

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 01/04/2010 has been entered.
2. Claims 1 and 9-10 are allowable. The restriction requirement, as set forth in the Office action mailed on 01/25/2006, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** Claims 3 and 7 are no longer withdrawn from consideration because the claim(s) requires all the limitations of an allowable claim. However, claims 15-22 and 25-27, directed to non-elected claims without traverse, are withdrawn from consideration because those claims do not require all the limitations of an allowable claim. Accordingly, those claims 15-22 and 25-27 are cancelled.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

3. Claims 1-14, 23-24 and 28-31 are allowed.
4. The following is an examiner's statement of reasons for allowance:

None of the prior art of record discloses or suggests alone or in combination that a mechanism for causing a flow of liquid crystal and a method of causing a flow of liquid crystal of the same comprising a combination of various elements/steps as claimed more specifically means serving to restrict the direction of rotation of those of the molecules which are positioned near said wall surface but not anchored to said wall surface such that, when an electric field or a magnetic is applied and a z-direction is defined as the axial direction of a liquid crystal molecule anchored to said wall surface and projected onto said wall surface, the relative directions of motion from said z-direction of end parts of said molecules rotating around their centers of gravity to move away from said wall surface will coincide with the bulk flow that is generated in said z-direction as set forth in claims 1, 9, 10 and 28.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dung T. Nguyen whose telephone number is 571-272-2297. The examiner can normally be reached on Monday-Thursday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David Nelms can be reached on 571-272-1787. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
